SCHOOL LIFE

15th September-the start of our new school year

It is September 15th and the schoolyard is like a lovely garden. It is full of smiling faces of children and adults, of huge bouquets of flowers, of excitement and emotion. Everyone wanted to tell where he was and what interesting things happened during the summer holiday. Only first graders were smiling and some of them looked timidly. They had put their new rucksacks, holding colorful flowers for their first teachers, excited and aching, they were waiting to enter the school and understand what is to be a student.

After raising the flag of the Republic of Bulgaria and the short program, Mr. Angelov - the principal of school welcomes all students, parents and teachers and then joyful ringing of the school bell announced the beginning of the school year. Let's the new school year is successful and let's our hopes and expectations come true.

PROJECT "MOVEMENT IS HEALTH"

At the beginning of 2015/2016 school year "Aleko Konstantinov" Primary school started a project called "Movement is health". The project includes the organization of various initiatives aimed to promote physical activity among students. Movement is an important factor to improve physical and mental health of children. Since the beginning of the school year our young students from grades 1-4 every morning have started their learning day with lots of fun, music and exercises, with the help of experts from the Association "Children sport activities".

Daniela Bukovich-an Assistant Principal

PROJECT "MEMORY"

On September 28th, 3rd students met Peter Gaydarov, the young hope of the Bulgarian Mathematical science. He was a student of the school "Aleko Konstantinov" and his younger brother Stephen is a student in third grade in our school.

As a student of the Mathematics High School in Plovdiv Petar Gaydarov took second place in all sciences of European competition for young scientists / EUCYS /, Poland. He found an error in a task over which mathematicians think of half a century, and he became the best young mathematician in Europe and got its place among the 10 best mathematicians in the world.

Before leaving to continue his studies in Cambridge, UK, Peter visited the third graders in their class lesson. He showed them the medals he earned, and photos of his training at our school and competitions, which he has won. He talked about his interest in mathematics and won the attention of young students with a few interesting logical tasks.

Peter won the hearts of the children with his modesty and sense of humor, he answered to all their questions. Finally, the children surrounded him and invited him again to visit our school.

UNESCO declared Theodosiy Spasov as "Artist of Peace"

Bulgarian musician Theodosiy Spasov was awarded with the title "Artist of peace " by UNESCO. He is awarded for his talent and innovation and his commitment to highlight music as a force for improving the dialogue between people, cultures and communities. The musician was officially awarded at a ceremony in Sofia. He joined the list of the international celebrities who use their influence to support messages and programs of UNESCO.

Theodosiy Spasov has played with symphony orchestras and music groups both in Bulgaria and in many other countries worldwide. He has released over 30 albums, some of them solo. He has won numerous awards in his native country and in abroad .Teodosiy Spasov has won the "Grammy" Award with the Mystery of Bulgarian Voices. UNESCO Artists for Peace are internationally recognized personalities who use their influence and prestige to promote messages and programs of the Organization.

Eliana Shtereva-3rd grade teacher

5th October - International Day of the teacher

Happy holiday, dear colleagues!

LANGUAGE PAGE

UNITED KINGDOM?

The terms "Britain", "British" and "Briton" are used throughout to refer to people, places and events in Britain or the United Kingdom, or its components, England, Wales, Scotland and Northern Ireland as appropriate. The term "Great Britain" was occasionally used from about 1603, and the Kingdom of Great Britain formed on 1 May 1707 when the kingdoms of England and Scotland were merged. On 1 January 1801, Ireland was included to form the United Kingdom of Great Britain and Ireland. After

Irish independence (6 December 1922), the name continued to be usual until 12 April 1927, when it became United Kingdom of Great Britain and Northern Ireland – which is the name that is used today, the wording that, for example, appears is on a British passport (and repeated in Welsh and Gaelic). Although, since 1975, the terms “Britain” and “British” have been legally regarded as referring to the United Kingdom and its inhabitants, in the Internet Age the top-level domain for the country was established as .uk, not .gb. Conversely, while Great Britain is a geographical area comprising England, Wales and Scotland, but excluding Northern Ireland, the official International Olympic Committee abbreviation for Great Britain and Northern Ireland was established in 1908 as “GBR” – at the 2008 Beijing Olympics popularly known as “Team GB” – so in the sports section you will find entries variously referring to GB, GBR and the UK, all of which denote athletes from Great Britain and Northern Ireland.
