## Fortissimo in class

In previous issue we met with the "Fortissimo in class" which is supported by the Foundation "America for Bulgaria" and covers Music classes in the fourth grade.

Besides brass flute, trumpet and French horn, the students of fourth grade in our school had the pleasure to get known with other groups of musical instruments in the symphony orchestra in several consecutive weeks.

The presentation of violin touched heavily the pupils. By wonderful performances and a story of Annie Tsoncheva they were acquainted with its structure and learnt what a pizzicato means, how to change the timbre of the instrument when using the mute and many other interesting things.

No less exciting was meeting with the cello. It was presented by Annette Artinian and children were highly impressed by the performance and beautiful timbre.

Long awaited moments were when they take instruments in their hands to play .

With great interest and joy students met the introduction of drums. Under the guidance of Desislava Ghiuseleva they tried different ways of playing.

The programme "Fortissimo in class", which presents a variety of musical instruments to fourth graders in music classes by professional teachers will end with a big concert on 25.04.2014 , conducted by Maxim Eshkenazi. We look forward to the concert.

## ON A SCHOOL HOLIDAY

Students of the second grade spent spring break at Hissar. The days flew unnoticeably, because of the great fun.

Every day they swam and ran on the water slide in the mineral pool. In the park, among green trees and flowering speedwells the children played ball games , badminton and frisbee.

Evenings were very interesting - disco, competitions, project presentations.

The second graders will remember the spring holiday with visiting the Thracian complex in the village of Starosel, Archaeological Museum and the Roman tomb in the town of Hissar.

## GENEROUS DONATION TO SCHOOL LIBRARY

March 31, 2014 - The director of our school, Mr. Krasimir Angelov, showed his commitment and willingness to support the spiritual creation of our school community by making a precious gift from his personal library. From the long list will cite only a few : Lives of great people: N. Ostrovskii, A. Krilov , Kant,Paganini, Spartak etc., collected works and selected works of M. Sholokhov, R. Rozhdensvenskiy, A.Tolstoy, K. Simonov, Yu. Nagibin, P. Zagrebelnii - a complete collection of his works and others.

We accept this precious gift as an excellent start to the annual fund-raising campaign of the library *`Donate a favorite book to be read by others`* and we believe that this example will contribute greatly to the success of the initiative among all our readers.

We are grateful to Mr. Angelov for his generosity!
