

Children's Creativity

The Homes Where We Live

The students were to learn the rules of arranging the furniture. This practical task gave them the opportunity to choose a room and materials which to use for recreating it. It is evident from the end results that the students put in a great effort, which is why the results were excellent. Neat rooms were smiling in all possible colours. We suggest you take a look at them too.

Handball Tournament

A handball tournament took place on 26 October 2016 between the sixth grade students. The first match was between Class 6A and Class 6B. It was a close game but Class 6A emerged victorious. The tournament continued with a game between 6A and 6V. The players were supported by their teammates. The winners from Class 6V continued the competition with a match against Class 6B and won again. After the end of the battles, Ms. Mineva gathered all the participants and announced the results: First place for Class 6V, second place for Class 6A, third place for Class 6B. We all had a lot of fun and cannot wait for the next competition.

For the First Time

Our school's first graders visited the school library for the first time. Their curious eyes and hands wanted to see and touch everything. They asked how many books there are in the library, is it the biggest library in the city, does the librarian remember all the books and why they cannot buy the books they like. After receiving answers to their questions, the children also learned the main rules of the library.
