Extracurricular activities

On 24.01. the club called "Nightingale voices" presented their projects on the topic "My favorite musical artist." The girls of class 4c prepared presentations and posters and sang favorite Bulgarian songs in front of the audience. Nadia Bezprizvannaya and Miglena Kodinova provoked a great interest in their classmates with some curious facts in the career of some contemporary Bulgarian music artists.

Alexandra Dimana Borisova and Alexandra Shikrenova told about the history of the musical instruments. The questions at the end of both presentations intensified and made the children laugh. The posters of Mila, the soloist of the band, Maria Florence, Ellis, Teddy, Ana-Maria, Maria Nevena will find out who their favorite artists are. They might be your favourite performers, too. You can see them displayed on the second floor in the school.

"PEANUTS" campaign

The campaign to collect pennies is initiated by "Creation-2012" association. It is national and the slogan "Children help children" has already reached the fifth year of raising funds to purchase equipment for children's hospital wards in the country. The campaign is targeted to children - they are those who give and those who receive.

Each child collects yellow coins at home throughout the whole year and on June 1st - Children's Day and December 6th - Feast of "St. Nikolai Wonderworker", submit them at school or at a certain collection point.

Each year the number of participants as well as the amount collected is increased.

## AN INTERVIEW AT THE HOSPITAL

- Why do you participate in this campaign?
- To help sick children get healthy.

## SCHOOL FOR PARENTS

### WHEN A CHILD IS IN CRISIS

HERE ARE A FEW RULES THAT WILL HELP YOU BE EFFECTIVE WHEN YOUR CHILD IS A CRISIS.

Your first goal is to control yourself. Relax, do not try to keep your child under control. Walk around the house, count to one hundred, call a friend. Do not let lose control. You are not responsible for your child`s self-control: he/she makes his/her own choices.

Instead, you are responsible for how you will bear his/her reactions. Try not to commit-

with the hard disk of his angry outbursts. If they do not conquer you, they do not capture him/her. Do not react with screams anxiety, standing over him or surrender – all those specific actions that we do as parents. Do not satisfy all desires of the child: If you run any resignation, seeing that it is a whim, you will create a model of behavior, leading to more outrage.

In fact, in this way you teach that the best way to get something is by screaming, slamming down on the ground and getting out of control.

Isolate your child: I do not mean to do more presentation in an isolated cabin, but rather send him/her to another room or a place to wait, ponder and learn how to calm down. Make sure that you do not continue to be bound by his/her outbursts.
